## PART I FINANCIAL SECTION

#### INDEPENDENT AUDITOR'S REPORT

Board of Directors Hawaii Green Infrastructure Authority

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and the special revenue fund of the Hawaii Green Infrastructure Authority (HGIA), as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the HGIA's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion

on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the special revenue fund of the HGIA, as of June 30, 2017, and the respective changes in financial position and the respective budgetary comparison for the special revenue fund for the fiscal year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in Note A, the financial statements of the HGIA are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the special revenue fund of the State of Hawaii and the State of Hawaii, Department of Business and Economic Development and Tourism that are attributable to the transactions of the HGIA. They do not purport to, and do not, present fairly the respective financial position of the State of Hawaii or the State of Hawaii, Department of Economic Development and Tourism as of June 30, 2017, or the respective changes in its financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 8 through 11 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's

responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2017 on our consideration of the HGIA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the HGIA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering HGIA's internal control over financial reporting and compliance.

N&K CPAS, INC.

Honolulu, Hawaii December 5, 2017

### Hawaii Green Infrastructure Authority MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2017

The following management's discussion and analysis provides an overview of the Hawaii Green Infrastructure Authority (HGIA) financial activities for the fiscal year ended June 30, 2017. Readers should also review the basic financial statements and the related notes to the financial statements to enhance their understanding of the HGIA's financial performance.

#### **Financial Highlights**

The key government-wide financial highlights for the fiscal year ended June 30, 2017 are as follows:

- Total assets exceeded liabilities by approximately \$144,704,000 (net position). This \$286,000 decrease from approximately \$144,990,000 as of June 30, 2016, is 69.9% less than the approximately \$951,000 decrease in net position posted from program losses during the previous fiscal year.
- Total liabilities were approximately \$78,000 as of June 30, 2017, an increase of 20% or \$13,000 from approximately \$65,000 as of June 30, 2016.

#### **Overview of the Basic Financial Statements**

The basic financial statements are comprised of (1) government-wide; (2) fund financial statements; and (3) notes to the basic financial statements.

- Government-wide financial statements provide both long-term and short-term information about the HGIA's overall financial position and changes in financial position. The statements are presented on an accrual basis of accounting and consist of the Statement of Net Position and Statement of Activities.
- Fund financial statements focus on individual parts of the HGIA and report operations in more detail than the government-wide statements. These statements are presented on a modified accrual basis of accounting and tell how activities were financed in the shortterm as well as what remains for future spending.
- The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

#### **Government-wide Financial Analysis**

The following discussion highlights management's understanding of the key aspects of the HGIA's financial activities.

### Hawaii Green Infrastructure Authority MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued) June 30, 2017

The following table was derived from the government-wide statement of net position:

Exhibit A-1
Condensed Statements of Net Position
June 30,

						2017 -	2016
	Governmental Activities					Increase	Percentage
		2017		2016		(decrease)	change
Assets:							
Noncapital assets	\$	144,781,581	\$	145,054,524	\$	(272,943)	(0.19) %
Total assets	\$	144,781,581	\$	145,054,524	\$	(272,943)	(0.19) %
Liabilities:							
Current	\$	71,237	\$	63,743	\$	7,494	11.76 %
Noncurrent		6,842		1,170		5,672	484.79 %
Total liabilities		78,079		64,913		13,166	20.28 %
Net position:							
Restricted for Hawaii green infrastructure		144,703,502		144,989,611		(286,109)	(0.20) %
Total net position		144,703,502		144,989,611		(286,109)	(0.20) %
Total liabilities and net position	\$	144,781,581	\$	145,054,524	\$	(272,943)	(0.19) %

#### **Analysis of Net Position**

Total assets of \$144,781,581 consisted of cash and cash equivalents, investments, loan and loan interest receivables. Due to an increase in revenues to offset expenses, total assets decreased by \$272,943 for the fiscal year ended June 30, 2017, as compared to a decrease of \$942,222 for the fiscal year ended June 30, 2016.

Total liabilities were \$78,079 as of June 30, 2017, and consisted of accrued wages and related fringe benefits of \$52,178, which increased by \$2,339 or 4.7% from the previous fiscal year, as well as program related accrued expenses of \$25,901, which increased by \$10,827 or 71.8% from the previous fiscal year. This temporary increase in program related expenses is due to the new commercial loan product launched at the end of the 2016 calendar year, as loan related expenses are reimbursed at loan closing.

Total government-wide net position decreased by \$286,109 for the fiscal year ended June 30, 2017, as compared to a decrease of \$951,191 for the fiscal year ended June 30, 2016, primarily due to increased revenues earned during the fiscal year ended June 30, 2017 to offset 67.2% of all program expenses.

### Hawaii Green Infrastructure Authority MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued) June 30, 2017

#### **Change in Net Position**

The following financial information was derived from the government-wide statement of activities and reflects how the HGIA's net position changed during the year ended:

Exhibit A-2
Condensed Statement of Activities
Fiscal Years Ended June 30,

						2017-2016					
	<b>Governmental Activities</b>					Increase	Percentage	,			
		2017		2016	(	decrease)	change				
Revenues		_		_							
Program revenues											
Charges for services	\$	110,849	\$	7,535	\$	103,314	1,371.12	%			
General revenues:											
Interest income		471,932		112,930		359,002	317.90	%			
Other revenues	-	4,582	-		_	4,582	100.00	%			
Total		587,363	=	120,465	_	466,898	387.58	%			
Expenses											
Hawaii green infrastructure	-	873,472	-	1,071,656	_	(198,184)	(18.49)	%			
Change in net position	\$	(286,109)	\$	(951,191)	\$	665,082	(69.92)	%			

#### **Analysis of Change in Net Position**

In November 2014, the HGIA received bond proceeds of \$146,323,248, which represented the net proceeds of the \$150.0 million of Green Energy Market Securitization Bonds, 2014 series A bonds issued by the Department of Business, Economic Development and Tourism, to capitalize the loan fund for the HGIA's Green Energy Market Securitization (GEMS) program.

Program revenues consisted of interest earned on GEMS program loans which totaled \$110,849 during the fiscal year ended June 30, 2017, which increased by \$103,314 or 1,371.1% from the prior fiscal year due to increased lending activity.

Interest income represents earnings on investments. Interest income from investments was \$471,932 for the fiscal year ended June 30, 2017 as compared to \$112,930 for the fiscal year ended June 30, 2016. Total interest income for the fiscal year ended June 30, 2017 increased by \$359,002 or 317.9% from the previous fiscal year.

Total expenses for the HGIA were \$873,472 for the fiscal year ended June 30, 2017, as compared to \$1,071,656 for the fiscal year ended June 30, 2016, which decreased by \$198,184 or 18.5% from the previous fiscal year due to a decrease in contract services required to administer the green infrastructure program in FY 2017.

### Hawaii Green Infrastructure Authority MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued) June 30, 2017

#### **Fund Financial Analysis**

The HGIA has only one fund, the special revenue fund.

Expenditures totaled approximately \$869,000 and \$1,089,000 for the fiscal year ended June 30, 2017 and 2016, respectively.

At the end of the fiscal year June 30, 2017 and 2016, fund balance amounted to approximately \$144,714,000 and \$144,996,000, respectively.

#### **Budgetary Highlights**

With an emphasis on managing expenses throughout the fiscal year, actual expenditures on a budgetary basis of approximately \$912,000 for the fiscal year ended June 30, 2017 was approximately \$88,000 below budget.

#### **Currently Known Facts**

On June 22, 2017, the Governor signed Act 57 SLH 2017, *Relating to Heat Abatement*, into law, which authorized the State of Hawaii's Department of Education (DOE) to borrow \$46.4 million from the HGIA to install energy-efficient lighting and other energy-efficiency measures, interest free. On June 29, 2017, the HGIA approved the \$46.4 million loan and on July 31, 2017, the DOE executed the said loan documents.

#### **Request for Information**

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, Hawaii Green Infrastructure Authority, 250 South Hotel Street, Honolulu, Hawaii 96813. General information about the HGIA can be found at the website, <a href="mailto:gems.hawaii.gov">gems.hawaii.gov</a>.

See accompanying notes to the financial statements.

#### **NOTE A - FINANCIAL REPORTING ENTITY**

The Hawaii Green Infrastructure Authority (HGIA) was created by Act 211, Session Laws of Hawaii 2013 to identify and provide innovative ways to increase access to clean energy in the State of Hawaii.

The HGIA is part of the executive branch of the State of Hawaii (the State). HGIA is administratively attached to the Department of Business, Economic Development and Tourism of the State of Hawaii (DBEDT). The HGIA's basic financial statements are intended to present the financial position and changes in financial position of only that portion of the governmental activities and the special revenue fund of the State and DBEDT that are attributable to the transactions of the HGIA. They do not purport to, and do not, present fairly the financial position of the State or the DBEDT as of June 30, 2017, or the changes in its financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America. The State Comptroller maintains the central accounts for all State funds and publishes comprehensive financial statements for the State annually, which include the HGIA's financial activities.

#### **NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the HGIA have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) as prescribed by the Governmental Accounting Standards Board. The following is a summary of the significant accounting policies in the preparation of such financial statements:

#### (1) Basis of Accounting and Measurement Focus

Government-Wide Financial Statements - The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of these activities are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Program revenues include interest and fees charged to the borrowers of the Hawaii Green Infrastructure Loan Program.

**Governmental Fund Financial Statements** - The governmental fund financial statements are reported using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of this fund present increases (i.e., revenues) and decreases (i.e., expenditures) in fund balance.

The modified-accrual basis of accounting is used by the governmental fund. Under the modified-accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at year-end).

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurable means that the amount of the transaction can be determined. Available means that the amount is collected in the current fiscal year or soon enough after yearend to liquidate liabilities existing at the end of the fiscal year.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when payment is due.

Encumbrance accounting is employed in the governmental fund. Under this method, purchase orders, contracts, and other commitments outstanding at year-end do not constitute expenditures or liabilities.

(2) Fund Accounting - The financial transactions of the HGIA are recorded in a fund. A fund is considered a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate the legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

The HGIA has only one fund, the special revenue fund. The special revenue fund accounts for the Hawaii Green Infrastructure Loan Program. Receipts may include loan repayments and interest earned on program loans made and investments of unused funds. Initial funding is from proceeds of bonds issued by DBEDT.

(3) Cash, Cash Equivalents, and Investments - Cash and cash equivalents consist of amounts held in the State Treasury and in a bank account held separately from the State Treasury. Cash in the State Treasury is pooled with funds from other State agencies and departments and deposited into approved financial institutions or participates in the State Treasury Investment Pool.

Cash accounts that participate in the investment pool accrue interest based on the weighted average cash balances of each account.

Investments held separately from the State Treasury are reported at fair value.

(4) Compensated Absences - Vacation leave is accrued at current salary rates. Vacation leave accumulates at the rate of one and three-quarters working days for each month of service up to a limit of ninety days at calendar year-end and is convertible to cash payment upon termination of employment. Accrued compensated absences is reported in the statement of net position.

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(5) **Fund Balance** - Fund balance is classified using a hierarchy based on the extent to which the HGIA is bound to follow constraints on how resources can be spent. Classifications include:

**Nonspendable** - Includes amounts that are (a) not in a spendable form or (b) legally or contractually required to remain intact.

**Restricted** - Includes amounts restricted to a specific purpose imposed by either (a) external parties (e.g. creditors, grantors, contributors or other governments) or (b) imposed by law through constitutional provisions or enabling legislation.

**Committed** - Includes amounts that can only be used for specific purposes based on constraints imposed by formal action of the State Legislature.

**Assigned** - Includes amounts that are constrained by the Authority's board for specific purposes, but are neither restricted nor committed.

**Unassigned** - This classification includes any negative residual balance when actual expenditures exceed available resources of the fund.

The HGIA has only restricted fund balance.

- (6) Intrafund Transactions Transfers of financial resources within the same fund are eliminated.
- (7) Use of Estimates The preparation of the basic financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE C - BUDGETING AND BUDGETARY CONTROL

In the Statement of Revenues and Expenditures - Budget and Actual (non-GAAP budgetary basis) - Special Revenue Fund, the amounts reflected as budgeted expenditures are derived from acts of the State Legislature and from other authorizations contained in specific appropriation acts in various Session Laws of Hawaii.

The amount reflected as actual expenditures has been adjusted to the budgetary basis by the inclusion of encumbrances that results in comparability with budgeted expenditures.

#### **NOTE C - BUDGETING AND BUDGETARY CONTROL (Continued)**

A reconciliation of the revenues under expenditures as shown on the Statement of Revenues and Expenditures - Budget and Actual (non-GAAP budgetary basis) - Special Revenue Fund to expenditures as shown on the Statement of Revenues, Expenditures, and Change in Fund Balance (GAAP basis) is presented below:

	_	Amount
Deficiency of revenues under expenditures - actual on a budgetary basis Reserve for encumbrances at year end Expenditures for liquidation of prior fiscal year encumbrances	\$	(899,604) 571,963 (422,850)
Revenues and expenditures for unbudgeted programs, net Net accrued expenditures		477,548 (8,661)
Deficiency of revenues under expenditures - GAAP basis	\$	(281,604)

#### NOTE D - CASH, CASH EQUIVALENTS, AND INVESTMENTS

#### (1) Cash and Cash Equivalents

The HGIA's cash balance is maintained in the State Treasury and in bank accounts held separately from cash in the State Treasury. The State Director of Finance (the Director) is responsible for the safekeeping of all moneys paid into the State Treasury. The Director pools and invests any moneys of the State, which in the Director's judgment, are in excess of amounts necessary for meeting the immediate requirements of the State.

For demand or checking accounts and time certificates of deposits, the State requires that the depository banks pledge collateral based on daily available bank balances to limit its exposure to custodial credit risk. The use of daily available bank balances to determine collateral requirements results in the available balances being under collateralized at times during the fiscal year. All securities pledged as collateral are held either by the State Treasury or by the State's fiscal agents in the name of the State.

Information relating to custodial credit risk of cash deposits in the State Treasury is available on a statewide basis and not for individual departments or agencies.

The cash balance in banks held separately from cash in State Treasury is insured by the Federal Deposit Insurance Corporation (FDIC). The bank balance of cash held outside of the State Treasury totaled approximately \$94,000 as of June 30, 2017.

#### NOTE D - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

#### (2) Investments

Information relating to interest rate risk, credit risk, custodial risk, and concentration of credit risk of investments in the State Treasury is available on a statewide basis and not for individual departments or agencies.

For investments held outside of the State Treasury, the HGIA does not have an investment policy related to interest rate risk and credit risk.

**Interest Rate Risk** - As a means of limiting its exposure to fair value losses arising from rising interest rates, the State's investment policy generally limits maturities on investments to not more than five years from the date of investment.

Investments held outside the State Treasury in a money market fund totaled approximately \$136,600,000 and the weighted average maturity was less than one year as of June 30, 2017.

**Credit Risk** - The State's investment policy limits investments in State and U.S. Treasury securities, time certificates of deposit, U.S. government or agency obligations, repurchase agreements, commercial paper, bankers' acceptances, and money market funds maintaining a Triple-A rating.

All investments held outside the State Treasury in a money market fund is rated AAAm by Standard & Poor's as of June 30, 2017.

Custodial Credit Risk - For an investment, custodial risk is the risk that, in the event of the failure of the counterparty, the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The State's investments are held at broker/dealer firms, which are protected by the Securities Investor Protection Corporation (SIPC) up to a maximum amount. In addition, excess-SIPC coverage is provided by the firms' insurance policies. In addition, the State requires the institutions to set aside in safekeeping, certain types of securities to collateralized repurchase agreements. The State monitors the market value of these securities and obtains additional collateral when appropriate.

**Concentration of Credit Risk** - The State's policy provides guidelines for portfolio diversification by placing limits on the amount the State may invest in any one issuer, types of investment instruments, and position limits per issue of an investment instrument.

Because all investments held outside the State Treasury are held in a money market fund, there is no custodial credit risk or concentration of credit risk for these investments.

#### NOTE D - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

Investments held outside the State Treasury in a money market fund totaling approximately \$136.6 million as of June 30, 2017, are measured at the net asset value. The fund seeks preservation of capital, daily liquidity and maximum income. There are no unfunded commitments as of June 30, 2017. Investment redemption may be made daily.

#### **NOTE E - LONG-TERM LIABILITIES**

The following is the changes in long-term liabilities for the fiscal year ended June 30, 2017:

	Cor	ccrued pensated sences	
Balance at June 30, 2016 Additions Deductions Balance at June 30, 2017	\$ _	6,042 26,304 (21,799) 10,547	
Less: current portion  Noncurrent portion	 \$	3,705 6.842	

#### **NOTE F - REVENUE BONDS**

In November 2014, the State of Hawaii, Department of Business, Economic Development and Tourism issued \$150 million in Green Energy Securitization Bonds, 2014 Series A (Bonds).

The State used the proceeds of the bonds, net of costs of issuance and the funding of a debt service reserve subaccount, to fund the Hawaii Green Infrastructure Loan Program (Loan Program), which is administered by the Hawaii Green Infrastructure Authority. The Loan Program serves the environmentally beneficial purpose of financing the purchase and installation of clean or renewable energy systems and energy efficiency projects for Hawaii ratepayers. None of the net proceeds of the Bonds used to fund the Loan Program, the loans, the repayments thereon, or the other assets of the Loan Program will serve as security for the Bonds.

The Bonds are special and limited obligations of the State payable from and secured by a pledge of Green Infrastructure Fee revenues and the Green Infrastructure Property and Accounts held under the Indenture. Green Infrastructure Property consists generally of the right to impose and collect, and to obtain periodic true-up adjustments to a non-bypassable fee on all electric customers of Hawaiian Electric Company, Inc., Hawaii Electric Light Company Inc., and Maui Electric Company, Limited, collectively the Service Providers (the Green Infrastructure Fee).

#### **NOTE F - REVENUE BONDS (Continued)**

The Bonds do not constitute general or moral obligation of the State or a charge upon the general fund of the State and the full faith and credit of the State is not pledged to payment of principal of or interest on the Bonds. No portion of the bonds is an obligation of the HGIA and therefore no bond obligations are recognized by the HGIA.

By order of the Public Utilities Commission, any loan repayments received by HGIA in excess of the loan program administrative costs is to be paid annually to replenish the Public Benefits Fee. Any loan repayments in excess of the loan program administrative costs and replenishment of the Public Benefits Fee may be used to fund additional program loans.

#### **NOTE G - RETIREMENT PLAN**

#### Plan Description

Generally, all full-time employees of the State and counties are required to be members of the State Employees' Retirement System (ERS), a cost-sharing multiple-employer defined benefit pension plan that administers the State's pension benefits program. Benefits, eligibility, and contribution requirements are governed by HRS Chapter 88 and can be amended through legislation. The ERS issues publicly available annual financial reports that can be obtained at ERS' website: <a href="http://www.ers.ehawaii.gov">http://www.ers.ehawaii.gov</a>.

#### Benefits Provided

The ERS Pension Trust is comprised of three pension classes for membership purposes and considered to be a single plan for accounting purposes since all assets of the ERS may legally be used to pay the benefits of any of the ERS members or beneficiaries. The ERS provides retirement, disability and death benefits with three membership classes known as the noncontributory, contributory and hybrid retirement classes. The three classes provide a monthly retirement allowance equal to the benefit multiplier (generally 1.25% or 2%) multiplied by the average final compensation multiplied by years of credited service. Average final compensation for members hired prior to July 1, 2012 is an average of the highest salaries during any three years of credited service, excluding any salary paid in lieu of vacation for members hired January 1, 1971 or later and the average of the highest salaries during any five years of credited service including any salary paid in lieu of vacation for members hired prior to January 1, 1971. For members hired after June 30, 2012, average final compensation is an average of the highest salaries during any five years of credited service excluding any salary paid in lieu of vacation.

Each retiree's original retirement allowance is increased on each July 1 beginning the calendar year after retirement. Retirees first hired as members prior to July 1, 2012 receive a 2.5% increase each year of their original retirement allowance without a ceiling. Retirees first hired as members after June 30, 2012 receive a 1.5% increase each year of their original retirement allowance without a ceiling. The annual increase is not compounded.

#### **NOTE G - RETIREMENT PLAN (Continued)**

The following summarizes the provisions relevant to the largest employee groups of the respective membership class. Retirement benefits for certain groups, such as police officers, firefighters, some investigators, sewer workers, judges, and elected officials, vary from general employees.

#### **Noncontributory Class**

#### Retirement Benefits:

General employees' retirement benefits are determined as 1.25% of average final compensation multiplied by the years of credited service. Employees with ten years of credited service are eligible to retire at age 62. Employees with 30 years of credited service are eligible to retire at age 55.

#### Disability Benefits:

Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined in the same manner as retirement benefits but are payable immediately, without an actuarial reduction, and at a minimum of 12.5% of average final compensation.

#### Death Benefits:

For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a monthly benefit of 30% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. Additional benefits are payable to surviving dependent children up to age 18. If there is no spouse/reciprocal beneficiary or dependent children, no benefit is payable.

Ordinary death benefits are available to employees who were active at time of death with at least ten years of credited service. The surviving spouse/reciprocal beneficiary (until remarriage/re-entry into a new reciprocal beneficiary relationship) and dependent children (up to age 18) receive a benefit equal to a percentage of the member's accrued maximum allowance unreduced for age or, if the member was eligible for retirement at the time of death, the surviving spouse/reciprocal beneficiary receives 100% joint and survivor lifetime pension and the dependent children receive a percentage of the member's accrued maximum allowance unreduced for age.

#### Contributory Class for Members Hired prior to July 1, 2012

#### **Retirement Benefits:**

General employees' retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with five years of credited service are eligible to retire at age 55.

#### **NOTE G - RETIREMENT PLAN (Continued)**

Police officers and firefighters' retirement benefits are determined using the benefit multiplier of 2.5% for qualified service, up to a maximum of 80% of average final compensation. Police officers and firefighters with five years of credited service are eligible to retire at age 55. Police officers and firefighters with 25 years of credited service are eligible to retire at any age, provided the last five years is service credited in these occupations.

#### Disability Benefits:

Members are eligible for service-related disability benefits regardless of length of service and receive a one-time payment of the member's contributions and accrued interest plus a lifetime pension of 50% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined as 1.75% of average final compensation multiplied by the years of credited service but are payable immediately, without an actuarial reduction, and at a minimum of 30% of average final compensation.

#### Death Benefits:

For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a lump sum payment of the member's contributions and accrued interest plus a monthly benefit of 50% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. If there is no surviving spouse/reciprocal beneficiary, surviving children (up to age 18) or dependent parents are eligible for the monthly benefit. If there is no spouse/reciprocal beneficiary or dependent children/parents, the ordinary death benefit is payable to the designated beneficiary.

Ordinary death benefits are available to employees who were active at time of death with at least one year of service. Ordinary death benefits consist of a lump-sum payment of the member's contributions and accrued interest plus a percentage of the salary earned in the 12 months preceding death, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

#### Contributory Class for Members Hired After June 30, 2012

#### Retirement Benefits:

General employees' retirement benefits are determined as 1.75% of average final compensation multiplied by the years of credited service. General employees with ten years of credited service are eligible to retire at age 60.

Police officers and firefighters' retirement benefits are determined using the benefit multiplier of 2.25% for qualified service, up to a maximum of 80% of average final

#### **NOTE G - RETIREMENT PLAN (Continued)**

compensation. Police officers and firefighters with ten years of credited service are eligible to retire at age 60. Police officers and firefighters with 25 years of credited service are eligible to retire at any age, provided the last five years is service credited in these occupations.

#### Disability and Death Benefits:

Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 50% of their average final compensation plus refund of contributions and accrued interest. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are 3% of average final compensation for each year of service for judges and elected officers and 1.75% of average final compensation for each year of service for police officers and firefighters and are payable immediately, without an actuarial reduction, at a minimum of 30% of average final compensation.

Death benefits for contributory members hired after June 30, 2012 are generally the same as those for contributory members hired June 30, 2012 and prior.

#### Hybrid Class for Members Hired Prior to July 1, 2012

#### **Retirement Benefits:**

General employees' retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with five years of credited service are eligible to retire at age 62. General employees with 30 years of credited service are eligible to retire at age 55.

#### Disability Benefits:

Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation plus refund of their contributions and accrued interest. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined in the same manner as retirement benefits but are payable immediately, without an actuarial reduction, and at a minimum of 25% of average final compensation.

#### **Death Benefits:**

For service-connected deaths, the designated surviving spouse/reciprocal beneficiary receives a lump sum payment of the member's contributions and accrued interest plus a monthly benefit of 50% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. If there is no surviving spouse/reciprocal beneficiary, surviving dependent children (up to age 18) or dependent parents are eligible for the monthly benefit. If there is no spouse/reciprocal beneficiary or dependent children/parents, the ordinary death benefit is payable to the designated beneficiary.

Ordinary death benefits are available to employees who were active at time of death with at least five years of service. Ordinary death benefits consist of a lump sum payment of the member's contributions and accrued interest plus a percentage multiplied by 150%,

#### **NOTE G - RETIREMENT PLAN (Continued)**

or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

#### **Hybrid Class for Members Hired After June 30, 2012**

#### Retirement Benefits:

General employees' retirement benefits are determined as 1.75% of average final compensation multiplied by the years of credited service. General employees with ten years of credited service are eligible to retire at age 65. Employees with 30 years of credited service are eligible to retire at age 60. Sewer workers, water safety officers, and emergency medical technicians may retire with 25 years of credited service at age 55.

#### Disability and Death Benefits:

Provisions for disability and death benefits generally remain the same except for ordinary death benefits. Ordinary death benefits are available to employees who were active at time of death with at least ten years of service. Ordinary death benefits consist of a lump sum payment of the member's contributions and accrued interest, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

#### **Contributions**

Contributions are governed by HRS Chapter 88 and may be amended through legislation. The employer rate is set by statute based on the recommendations of the ERS actuary resulting from an experience study conducted every five years. Since July 1, 2005, the employer contribution rate is a fixed percentage of compensation, including the normal cost plus amounts required to pay for the unfunded actuarial accrued liabilities. The contribution rates for fiscal year 2017 were 25.00% for police officers and firefighters and 17.00% for all other employees.

The HGIA's contribution requirement as of June 30, 2017 was approximately \$58,000. Measurement of assets and actuarial valuations are made for the ERS as a whole and are not separately computed for individual participating employers such as the HGIA.

The employer is required to make all contributions for noncontributory members. Contributory members hired prior to July 1, 2012 are required to contribute 7.8% of their salary, except for police officers and firefighters who are required to contribute 12.2% of their salary. Contributory members hired after June 30, 2012 are required to contribute 9.8% of their salary, except for police officers and firefighters who are required to contribute 14.2% of their salary. Hybrid members hired prior to July 1, 2012 are required to contribute 6.0% of their salary. Hybrid members hired after June 30, 2012 are required to contribute 8.0% of their salary.

#### **NOTE G - RETIREMENT PLAN (Continued)**

Measurement of the actuarial valuation is made for the State as a whole and is not separately computed for the individual state departments and agencies such as the HGIA. It is the State's policy to recognize the proportionate share of the pension liability, pension expense, deferred inflows related to pensions, and deferred outflows related to pension for only component units and proprietary funds that are reported separately in the State's Comprehensive Annual Financial Report (CAFR). Therefore, the share of the pension liability, pension expense, deferred inflows related to pensions, and deferred outflows related to pension for the HGIA are not included in the financial statements. The State's CAFR includes the note disclosures and required supplementary information on the State's pension plans.

Pension expenditures included in the statement of revenues, expenditures, and changes in fund balance for the HGIA's special revenue fund totaled approximately \$58,000 for the fiscal year ended June 30, 2017.

#### NOTE H - POST-RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

The State provides certain health care and life insurance benefits to all qualified employees. Pursuant to Act 88, SLH 2001, the State contributes to the Employer-Union Health Benefits Trust Fund (EUTF), an agent multiple-employer defined benefit plan that replaced the Hawaii Public Employees Health Fund effective July 1, 2003. The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees and their dependents. The EUTF issues an annual financial report that is available to the public. The report may be obtained by writing to the EUTF at P.O. Box 2121, Honolulu, Hawaii 96805-2121.

For employees hired before July 1, 1996, the State pays the entire base monthly contribution for employees retiring with ten years or more of credited service, and 50% of the base monthly contribution for employees retiring with fewer than ten years of credited service. A retiree can elect a family plan to cover dependents.

For employees hired after June 30, 1996 but before July 1, 2001, and who retire with less than ten years of service, the State makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the State pays 50% of the base monthly contribution. For employees retiring with at least 15 years but fewer than 25 years of service, the State pays 75% of the base monthly contribution. For employees retiring with at least 25 years of service, the State pays 100% of the base monthly contribution. Retirees in this category can elect a family plan to cover dependents.

For employees hired on or after July 1, 2001, and who retire with less than ten years of service, the State makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the State pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the State pays 75% of the base monthly contribution. For employees retiring with at least 25 years of service, the State pays 100% of the base monthly contribution. Only single plan coverage is provided for retirees in this category. Retirees can elect family coverage but must pay the difference.

### NOTE H - POST-RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS (Continued)

The State is required to contribute the annual required contribution (ARC) of the employer, an amount that is actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Measurement of the actuarial valuation and the ARC are made for the State as a whole and are not separately computed for the individual state departments and agencies such as the HGIA. The State has only computed the allocation of the other postemployment benefit (OPEB) costs to component units and proprietary funds that are reported separately in the State's Comprehensive Annual Financial Report (CAFR). Therefore, the OPEB costs for the HGIA was not available and are not included in the financial statements. The State's CAFR includes the note disclosures and required supplementary information on the State's OPEB plans.

The HGIA's contributions made to the plan were approximately \$27,300 for the fiscal year ended June 30, 2017.

#### **NOTE I - DEFERRED COMPENSATION PLAN**

The State offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all State employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

All plan assets are held in a trust fund to protect them from claims of general creditors. The State has no responsibility for loss due to the investment or failure of investments of funds and assets in the plan, but has the duty of due care that would be required of an ordinary prudent investor.

#### **NOTE J - COMMITMENTS AND CONTINGENCIES**

#### **Encumbrances**

Encumbrances totaled approximately \$572,000 as of June 30, 2017.

#### Accumulated Sick Leave

Employees earn sick leave at the rate of 14 hours for each month of service without limit, but can be taken only in the event of illness and is not convertible to pay upon termination of employment. However, a permanent employee of the HGIA who retires or leaves government service in good standing with sixty days or more of unused sick leave is entitled to additional service credit in the ERS. Accumulated sick leave as of June 30, 2017 approximated \$15,400.

#### **NOTE J - COMMITMENTS AND CONTINGENCIES (Continued)**

#### **Program Loans**

Commitments to fund program loans totaled approximately \$4.3 million as of June 30, 2017.

#### **NOTE K - RISK MANAGEMENT**

#### Insurance Coverage

Insurance coverage is maintained at the State level. The State records a liability for risk financing and insurance related losses if it is determined that a loss has been incurred and the amount can be reasonably estimated. The State retains various risks and insures certain excess layers with commercial insurance companies. The excess layers insured with commercial insurance companies are consistent with the prior fiscal year. Settled claims have not exceeded the coverage provided by commercial insurance companies in any of the past ten fiscal years. A summary of the State's underwriting risks is as follows:

#### **Property Insurance**

The State has an insurance policy with a variety of insurers in a variety of layers for property coverage. The deductible for coverage is 3% of loss subject to a \$1,000,000 per occurrence minimum. This policy includes windstorm, earthquake, flood damage, terrorism, and boiler and machinery coverage. The limit of loss per occurrence is \$200,000,000, except for terrorism, which is \$50,000,000 per occurrence and a \$10,000 deductible.

#### **Crime Insurance**

The State also has a crime insurance policy for various types of coverages with a limit of loss of \$10,000,000 per occurrence with a \$500,000 deductible per occurrence, except for claims expense coverage, which has a \$100,000 limit per occurrence and a \$1,000 deductible. Losses under the deductible amount are paid by the Risk Management Office of the Department of Accounting and General Services and losses not covered by insurance are paid from legislative appropriations of the State's General Fund.

#### **General Liability (Including Torts)**

Liability claims under \$10,001 and automobile claims under \$15,001 are handled by the Risk Management Office. All other claims are handled by the Department of the Attorney General. The State has personal injury and property damage liability, including automobile and public errors and omissions, insurance policy in force with a \$4,000,000 self-insured retention per occurrence. The annual aggregate per occurrence is \$7,500,000.

Losses under the deductible amount or over the aggregate limit are paid from legislative appropriations of the State's General Fund.

#### **NOTE K - RISK MANAGEMENT (Continued)**

#### **Self-Insured Risks**

The State generally self-insures its automobile no-fault and workers' compensation losses. Automobile losses below \$15,000 are administered by the Risk Management Office. The State administers its workers' compensation losses.

The HGIA is covered by the State's self-insured workers' compensation program for medical expenses of its insured employees. However, temporary wage loss replacement benefits are paid to those employees by the HGIA. There were no benefits paid by the HGIA for the fiscal year ended June 30, 2017.

#### **NOTE L - SUBSEQUENT EVENT**

On June 22, 2017, the Governor signed Act 57 SLH 2017, *Relating to Heat Abatement*, into law, which authorized the State of Hawaii's Department of Education (DOE) to borrow \$46.4 million from the HGIA to install energy-efficient lighting and other energy-efficiency measures, interest free. On June 29, 2017, the HGIA approved the \$46.4 million loan and on July 31, 2017, the DOE executed the said loan documents.

#### PART II

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### INDEPENDENT AUDITOR'S REPORT

Board of Directors
Hawaii Green Infrastructure Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and the special revenue fund of the Hawaii Green Infrastructure Authority (the HGIA), as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the HGIA's basic financial statements, and have issued our report thereon dated December 5, 2017.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the HGIA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the HGIA's internal control. Accordingly, we do not express an opinion on the effectiveness of the HGIA's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the HGIA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

N&K CPAS, INC.

Honolulu, Hawaii December 5, 2017
